ORDINANCE NO. 1542

AN ORDINANCE OF HAVERFORD TOWNSHIP, DELAWARE COUNTY, PENNSYLVANIA, DELINEATING AND REGULATING ENCROACHMENTS IN FLOOD PLAIN AREAS ALONG THE COBBS CREEK, NAYLORS RUN CREEK AND DARBY CREEK IN THE TOWNSHIP OF HAVERFORD.

WHEREAS, the Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, being cognizant of possible recurring flooding of the Cobbs Creek, Naylor's Run Creek, and the Darby Creek within the boundaries of the Township of Haverford; and

WHEREAS, the problem of flooding within the flood plains of the Cobbs Creek, Naylor's Run Creek, and the Darby Creek has been a project of study by the U. S. Army Engineer District, Philadelphia Corps of Engineers and the U. S. Department of Housing and Urban Development, Federal Insurance Administration, which studies have resulted in flood plain delineations, copies of which are available from the Township Engineer.

NOW, THEREFORE, the Board of Commissioners of the Township of Haverford does enact and ordain this Ordinance:

1. PURPOSE AND POLICY: It is hereby found that the Cobbs Creek, Naylor's Run Creek and the Darby Creek in the Township of Haverford are subject to recurring flooding, that such flooding damages and endangers life and public and private property and facilities, that this condition is aggravated by developments and encroachments in the flood plains, and that the most appropriate method of alleviating such condition is through regulation of such developments and encroachments. It is therefore determined that the special and paramount public interest in the flood plain justifies the regulation of property located therein as provided in this Ordinance, which is within the exercise of the police power of the municipality, for the protection of the persons and property of its inhabitants and for the preservation of the public health, safety and general welfare.

2. CONTENT: This Ordinance consists of this text and Flood Plain Information Reports prepared by the U. S. Army Engineer District, Philadelphia Corps of Engineers on survey investigation of flood control and allied purposes in Darby Dreek-Cobbs Creek Watershed, based on a 100 year storm dated 1972, and U. S. Department of Housing and Urban Development, Federal Insurance Administration, FIA Flood Hazard Boundary Maps No. H 42-045-3547 01-04, dated December 21, 1973. Said reports including maps and profile are on file in the offices of the Township Secretary and the Township Engineer and are incorporated in this Ordinance by reference as though fully set forth in this text.

This Ordinance shall also consist of any and all revisions and amendments of these texts as may be prepared from time to time.

3. **DEFINITIONS:** As used herein, the following terms have the meanings indicated:

FLOOD MAP: The maps identified in Section 2 of this Ordinance and the Flood Plain Reports of which the maps are an integral part.

CHANNEL: The bed and banks of Cobbs Creek and its branches, Naylor's Run Creek, and the Darby Creek which convey the normal flow of the stream that occurs most of the time.

FLOOD PLAIN: The relatively flat area adjoining the channel which has been or may be hereafter covered by flood water of the stream.

FLOODWAY: The channel and portions of the adjacent flood plain that carry the greater part of flood flow at greater depths and velocities than do the other parts of the flood plain that constitute the minimum area required for the passage of flood flows without aggravating flood conditions upstream and downstream, that are necessary to preserve the natural regimen of the stream for the reasonable passage of the floodway design flood and that are delineated on the floodway, that are in the Township of Haverford.

FLOOD HAZARD AREA: The floodway, and additional portions of the flood plain that are subject to flood flow at lesser depths and lower velocities than the floodway, that are inundated by the flood hazard area design flood and that are delineated in the flood plain reports as flood hazard area.

DESIGN FLOOD (FLOODWAY OR FLOOD HAZARD AREA): The relative size or magnitude of a flood, expressed as a design discharge in cubic feet per second, which is developed from hydrologic criteria, represents a major flood of reasonable expectancy, reflects both flood experience and flood potential, and is the basis of the delineation of the floodway and the flood hazard area and the water surface elevations thereof in the flood plain reports.

DESIGN FLOOD PROFILE (FLOODWAY OR FLOOD HAZARD AREA): The elevations of the water surface of the floodway design flood and the flood hazard area design flood as shown on the flood maps included in the flood plain report.

4. **APPLICABILITY:** The following regulations shall govern developments in the floodway and flood hazard area:

(a) No building or structure shall be erected or moved, or externally altered or added to or enlarged nor shall any material or equipment be stored, nor shall any fill be placed, nor shall the elevation of any land be substantially changed in the floodway, except in the accordance with a permit issued therefore as provided by this Ordinance; provided, however, that accepted practices of soil husbandry, and the harvesting of crops, in connection with farming,

lawns, gardens, and recreational usage that do not include structures, are not included in the foregoing prohibitions.

(b) No building or structure shall be erected or moved, or externally altered or added to or enlarged, in the flood hazard area outside the floodway if the elevation of any floor thereof, including cellar, shall be less than one foot above the flood hazard area design flood profile, except in accordance with a permit issued therefor as provided by this ordinance.

(c) In cases of doubt or uncertainty as to the exact limits of the floodway or flood hazard area in a proposed development, the Township Engineer may, upon the application and with the consent of the landowner, determine the precise location of a floodway or flood hazard area limit by close inspection, field survey or other appropriate method and cause the same to be marked on the ground, notifying the landowner, and supply the Building Inspector and the Planning Board of the results thereof.

5. PROCEDURE: The following procedure shall govern the issuance of such permits as required by the provisions of Section 4 of this Ordinance:

(a) The property owner or contractor shall apply to the Building Inspector for approval of development plans, which shall be submitted with the application. Such plans shall include a true and accurate plot plan, submitted in triplicate, drawn to a scale of not less than one inch equals fifty feet with contour lines at intervals of not more than two feet, showing the exact size, shape, location and elevation of existing and proposed building and structures and of any proposed fill or regrading, the exact dimensions and acreage of each lot or plot to be built upon or otherwise used, the location, layout and elevation of existing and proposed parking areas, driveway drainage, sewer and water facilities and connections, plantings, seedings, screenings, fences and signs, and such other information as shall be reasonably required for an evaluation of the effect of the development upon flood control in addition to other requirements contained in the Township Subdivision and Development Ordinance.

(b) The Building Inspector shall, within thirty days after receiving the application, forward the same and the development plans submitted therewith, together with his written report thereon, to the Planning Commission for review.

(c) The Planning Commission shall review the application, and after giving the applicant an opportunity to appear and be heard with respect thereto, shall approve or disapprove the same within ninety days after appearance of the applicant or his representative before the Planning Commission, being guided in its action by the standards set forth in Section 6. Approval may be conditional upon the applicant's adoption of specified changes, and as to applications for developments in the floodway. The Planning Commission shall state its findings and the reasons for its action in writing, and a copy thereof shall be given to the applicant.

(d) If the application shall be approved by the Planning Commission and by such other governmental authorities as have jurisdiction in the premises, the Building Inspector shall issue a permit for the development in accordance with such approval.

(e) If the Planning Commission shall fail to take final action within ninety days as described above or within such further time as shall have been agreed to by the applicant, the application shall be deemed to have been approved.

(f) If any person shall be aggrieved by the action of the Planning Commission, appeal in writing to the Board of Commissioners may be taken within ten days after the date of such action. The Board of Commissioners shall fix and notify appellant of a time and place for a public hearing on said appeal, and the appellant shall cause notice of such hearing to be published in a newspaper circulating in the Township at least ten days prior to the hearing. All parties in interest shall be afforded an opportunity to be heard thereat. After such hearing, the Board of Commissioners shall affirm or reverse the action of the Planning Commission, stating its findings and reasons for its action, and a written copy of such action shall be given to the appellant.

6. STANDARDS: In reviewing applications submitted under Section 5 the Planning Commission shall consider and be guided by the general purposes set forth in Section 1, and in addition, shall apply the following standards:

(a) As to developments in the floodway, primary consideration shall be given to preserving this area as defining the minimum capacity required for the passage of flood flows without aggravating flood conditions upstream and downstream. Encroachments therein shall therefore be permitted most sparingly and only in cases in which the public interest will be served, such as bridges, roads, utility installations and the like, and the temporary storage of material or equipment in connection with and during the construction thereof, or where the obstruction is minimal, such as surface parking or recreation areas, open fencing, and the like, and then, in either case, only in accordance with conditions designed to limit the obstruction to the practicable minimum.

(b) As to developments in the flood hazard area outside the floodway, primary consideration shall be given to the protection of persons and property involved in the development, and such consideration shall not be avoided by the waiver of the applicant. Exceptions from the prohibitions of Section 4 (b) shall therefore be permitted only where the building or structure is not designed or intended as a human dwelling place, is of a monetary value less than ten percent of the value of the lot or parcel of land upon which it is proposed to be installed, is not intended to house property of a value greater than its own value, and will not by reason of its size, shape, construction or location have any substantial adverse effect upon the functioning of the floodway.

7. VALIDITY AND SEVERABILITY: If any provisions of this ordinance shall be adjudged invalid, such adjudication shall not affect the validity of the remaining provisions, which shall be deemed severable.

8. LIABILITY: The grant of a zoning permit or approval of a subdivision plan involving Flood Plain delineation shall not constitute a representation, guarantee or warranty of any kind by the Township or by any official or employee thereof of the practicability or safety of the proposed use, and shall create no liability upon the Township, its officers or employees.

9. PRECEDENCE: This ordinance shall take precedence over any conflicting ordinances or codes concerning land use and control.

10. PENALTIES: For any and every violation of the provisions of this ordinance, the owner, general agent, or contractor of a building or premises where such violation has been committed or shall exist, and the lessee or tenant of an entire building or entire premises where such violation has been committed or shall exist, and the owner, general agent, contractor, lessee or tenant of any part of a building or premises in which such violation has been committed or shall exist, and the general agent, architect, builder, contractor or any other person who knowingly commits, takes part or assists in any such violation or who maintains any building or premises in which any such violation shall exist, shall be liable on conviction thereof to a fine or penalty not exceeding Three Hundred Dollars (\$300.00) for each and every offense, and whenever such person shall have been notified by the Building Inspector, or by service of summons in a prosecution, or in any other way, that he is committing such violation of this ordinance each day that he shall continue such violation after such notification shall constitute a separate offense punishable by a like fine or penalty. Such fines or penalties shall be collected in the manner provided in the First Class Township Code.

GENERAL OBLIGATION BOND, SERIES OF 1974

KNOW ALL MEN BY THESE PRESENTS, that Township of Haverford, Delaware County, Pennsylvania (the Township), a municipal corporation of the Commonwealth of Pennsylvania, for value received, hereby acknowledges itself to be indebted and promises to pay to the bearer, or if this Bond is registered as hereinafter provided to the registered owner hereof, on the first day of August, 19 , unless sooner called for redemption and payment of the redemption price made or provided for, the principal sum of FIVE THOUSAND DOLLARS (\$5,000) and to pay interest thereon from June 1, 1974 at the annual rate of percent (%), payable initially on February 1, 1975 and semi-annually thereafter on February 1 and August 1 of each year commencing August 1, 1975, but only upon presentation and surrender of the interest coupons hereto attached as they severally become due. The principal of and interest on this Bond shall be payable in lawful money of the United States of America, at the principal corporate trust office of Philadelphia National Bank, in Philadelphia, Pennsylvania (the Paying Agent).

This Bond is one of a duly authorized issue of General Obligation Bonds, Series of 1974, of the Township (the Bonds), in the aggregate principal amount of \$1,550,000, in the denomination of \$5,000 each, numbered V1 to V310, inclusive, all of like date and tenor, except as to date of maturity, rate of interest and provision for redemption and all issued in accordance with the Local Government Unit Debt Act of the Commonwealth of Pennsylvania approved July 12, 1972 (the Act), without the assent of the electors, pursuant to an ordinance (the Ordinance) of the Board of Commissioners of the Township adopted May 13, 1974.

The Act provides that this Bond, its transfer and the income therefrom, including any gains made on the sale thereof, shall at all times be free from taxation within and by the Commonwealth of Pennsylvania, but this exemption shall not extend to underwriting profits or to inheritance taxes or any other taxes not levied or assessed directly on the Bonds, the receipt of the income therefrom, or the realization of gains on the sale thereof.

Bonds stated to mature on August 1, 1979 and thereafter are subject to redemption at the option of the Township on and after June 1, 1979, as a whole at any time, or in part from time to time in inverse order of maturity (within a maturity by lot) on any interest payment date, at 100% of principal amount, together with interest accrued to the date fixed for redemption.

The Township and the Paying Agent may treat the bearer of this Bond if it shall not at the time be registered as to principal, the registered owner of this Bond if it shall at the time be so registered, and the bearer of any coupon appertaining hereto, whether or not this Bond shall be so registered, as the absolute owner of this Bond or of such coupons as the case may be, for all purposes and neither the Township nor the Paying Agent shall be affected by any notice to the contrary.

It is hereby certified that the approval of the Department of Community Affairs of the Commonwealth of Pennsylvania for the Township to issue and deliver this Bond has been duly given pursuant to the Act; that all acts, conditions and things required by the laws of the Commonwealth of Pennsylvania to exist, to have happened or to have been performed, precedent to or in the issuance of this Bond or in the creation of the debt of which this Bond is evidence, exist, have happened and have been performed in regular and due form and manner as required by law; that this Bond, together with all other indebtedness of the Township is within every debt and other limit prescribed by the Constitution and the statutes of the Commonwealth of Pennsylvania; that the Township has established with the Paying Agent a sinking fund for the Bonds and shall deposit therein amounts sufficient to pay the principal of and interest on the Bonds as the same shall become due and payable; and that for the prompt and full payment of all obligations of this Bond, the full faith, credit and taxing power of the Township are hereby irrevocably pledged.

Neither this Bond nor any coupon for interest hereon shall be entitled to any benefit under the Ordinance nor be valid nor become obligatory for any purpose until this Bond shall have been authenticated by the Paying Agent, by execution of the certificate endorsed hereon.
